New Taxi Queue Flow

Account Validation and Payment Process

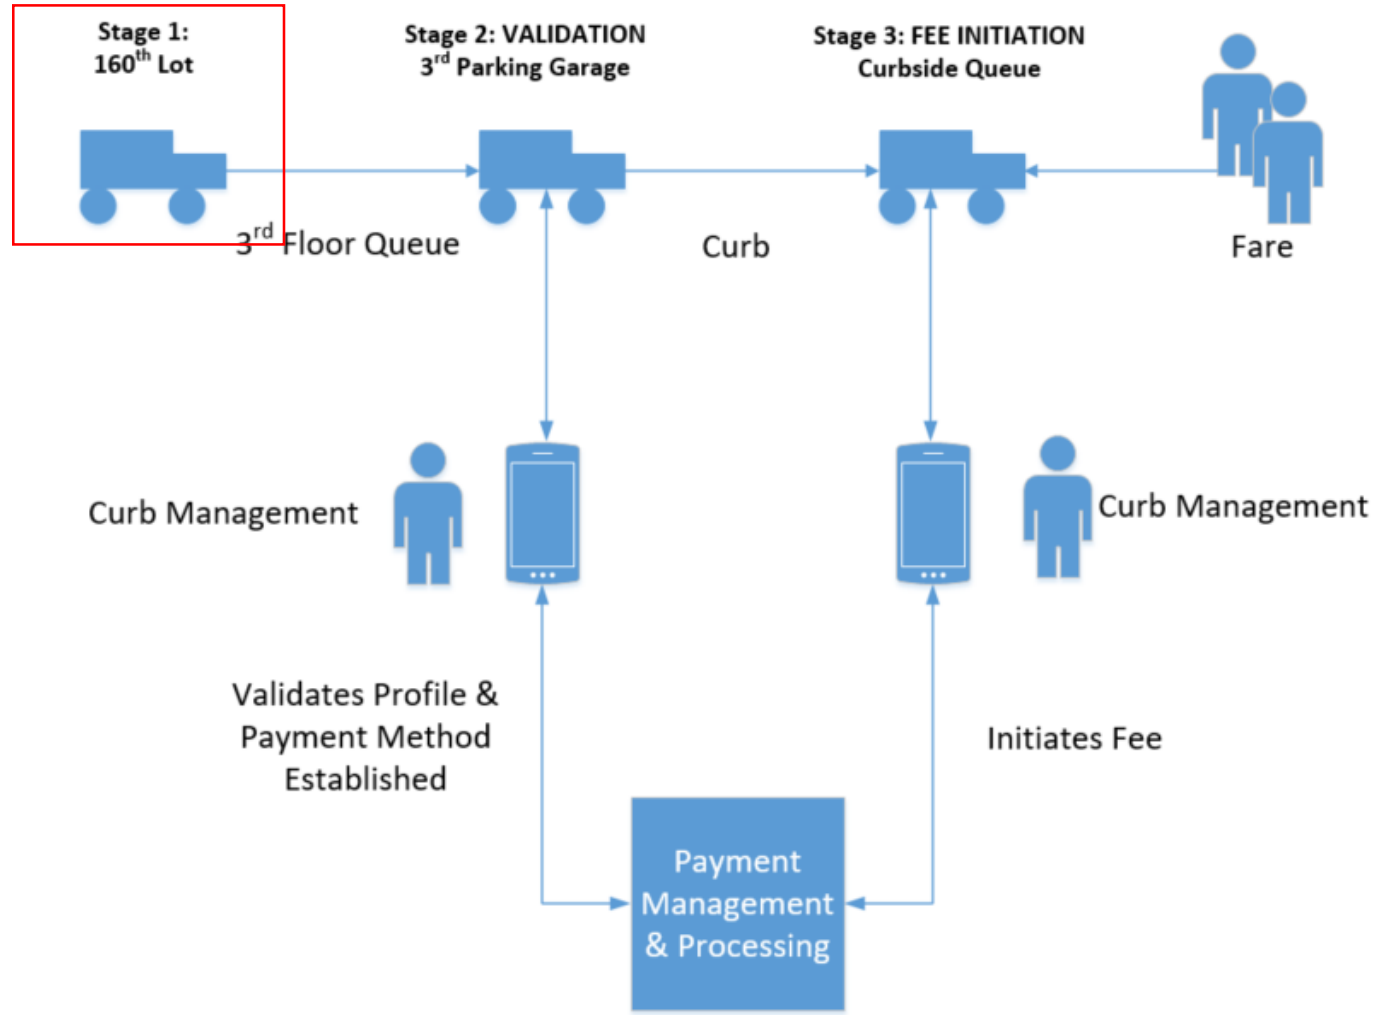

Flow Overview

Stage 1:
160th Lot

What's New?

Nothing is changing here. Drivers will still use this space as a staging area before heading to the 3rd floor Garage.

Stage 2: 3rd Floor Garage

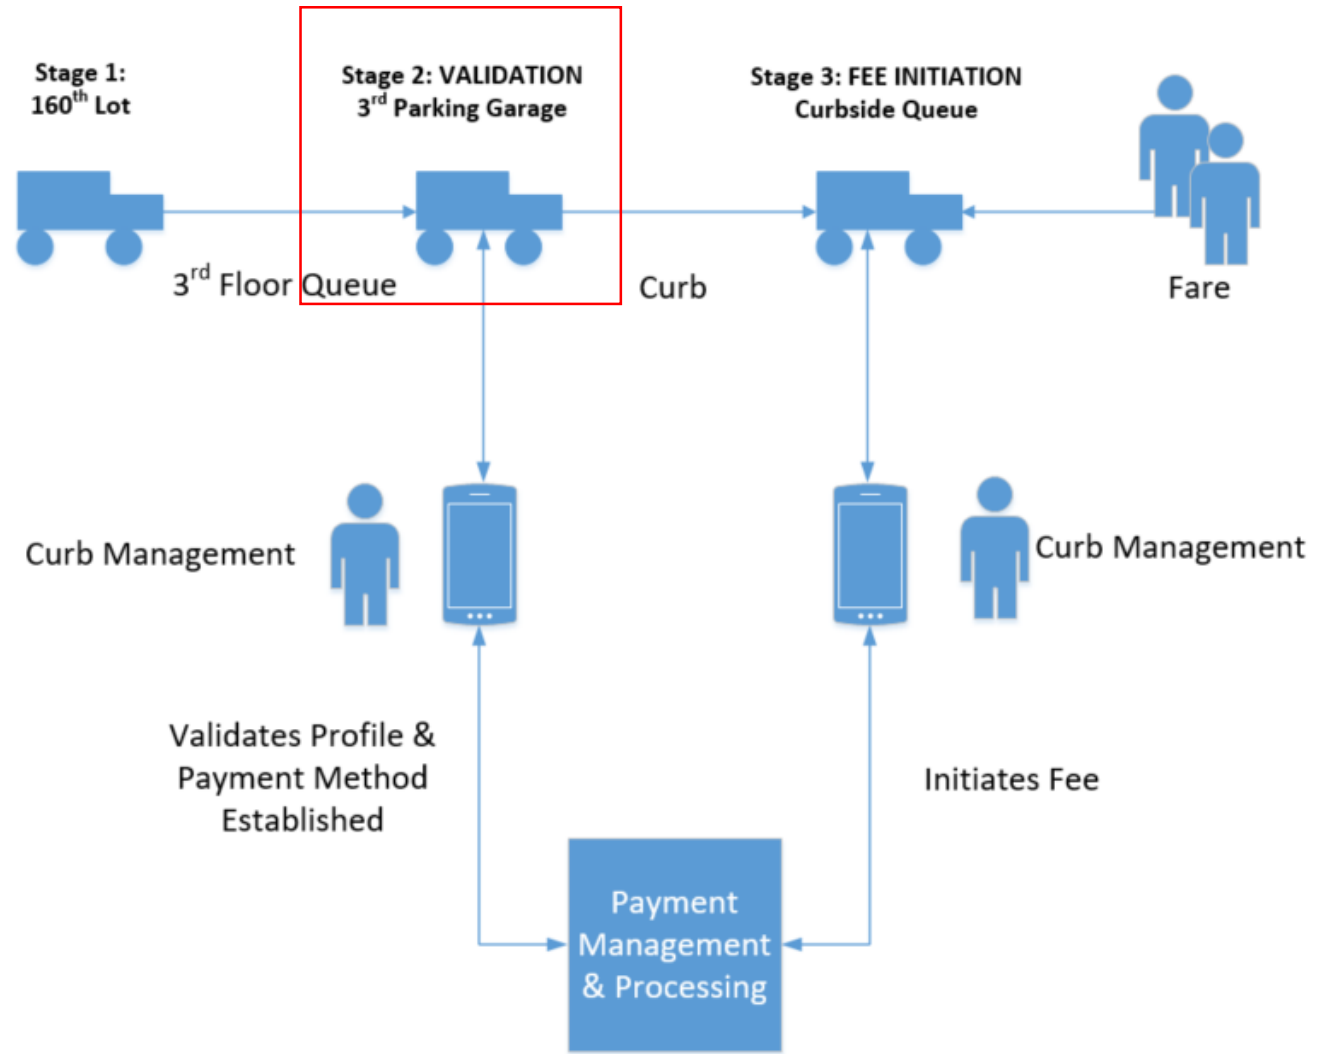

What's New?

Before entering the queue, Curbside will:

- Validate the driver has created a profile and registered a payment method within the new Driver Portal. This is done via a scan of your profile QR code.
- Validate the vehicle is permitted to operate on premise.
- If both driver profile and the vehicle are **successfully** validated, the driver will be able to enter the queue to pick up a customer.
- If either profile or vehicle are **not** successfully validated, the driver will not be allowed to enter the queue until resolved.

As a driver I will need to:

- Ensure you have created a driver profile and registered at least one (1) payment method within the Port of Seattle Driver portal.
- Ensure the vehicle that you are operating is registered and permitted with the Port of Seattle Ground Transportation.
- Have your QR code ready to scan for validation.
 - Access your driver profile to display QR code
 - Print out QR code on paper
 - Take a screen shot of your QR code

Stage 3: Curbside Queue

What's New?

Before being able to accept a fare, Curbside will scan your QR code one more time to initiate the per trip fee (\$6.00).

- If the payment is Accepted, driver can proceed with the customer.
- If the payment is Declined, driver will be asked to leave the queue to correct payment card.

As a driver I will need to:

- Have your QR code ready to scan for payment.
 - Access your driver profile to display QR code
 - Print out QR code on paper
 - Take a screen shot of your QR code
