thornton.t@portseattle.org

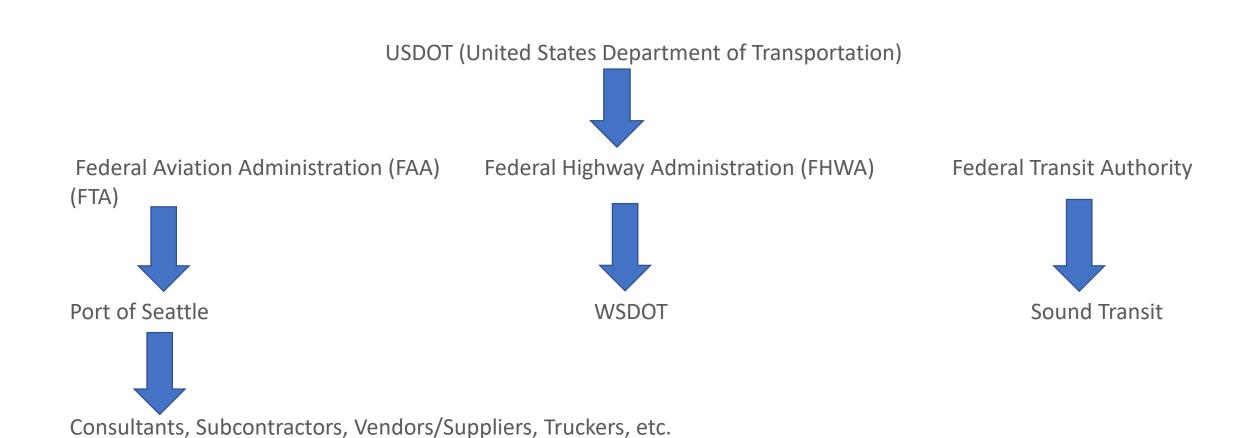

The DBE Program's governing rules/regulations can be found within the Code of Federal Regulations (49 CFR Part 26).

The Department's Disadvantaged Business Enterprise (DBE) program is designed to remedy ongoing discrimination and the continuing effects of past discrimination in federally-assisted highway, transit, airport, and highway safety financial assistance transportation contracting markets nationwide.

The primary remedial goal and objective of the DBE program is to level the playing field by providing small businesses owned and controlled by socially and economically disadvantaged individuals a fair opportunity to compete for federally funded transportation contracts.

# Port Chain of Command of Seattle\*

This project is AIP funded which includes DBE requirement (i.e. DBE firm participation).

**Contract Value**: 8-year contract (5-year base with three possible 1-year extensions), up to \$40 million

**DBE Goal** – **2.87%** (**Required**)

#### Legend

Noise Remedy Boundary

City Boundaries

Sound Insulation Projects		
	Completed Since 1985	Potentially Eligible
Apartment Units	0	903 (18 complexes)
Places of Worship	0	7
Single-Family Homes	9,400	140
Total	9,400	1,050 (18 complexes)

# Port Seattle Single-Family Sound Insulation

- 80 of 140 eligible homes anticipated to participate in program
- Anticipate construction on 10 15 homes per year through 2026
- Homeowner outreach for potentially eligible homes
- Construction delivery utilizing Job Order Contracting (JOC)

# **Future Apartment Sound Insulation**

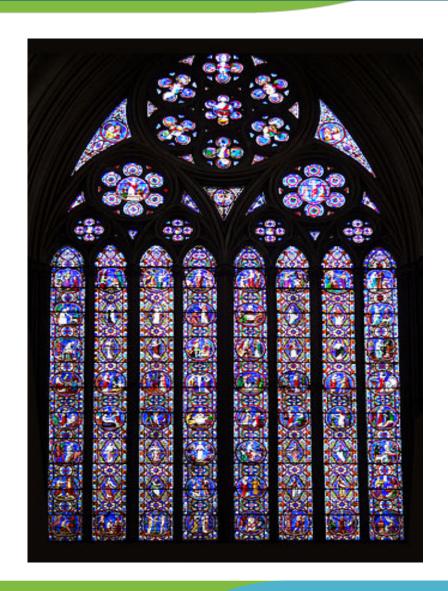

- 18 complexes comprising 903 apartment units
- Project delivery method will likely be Design Bid Build
- Construction Q1 2022 Q4 2026

## **Future Places of Worship Sound Insulation**

- 7 potentially eligible structures
- Project delivery method will likely be Design Bid Build
- Plan to begin design for first project Q3 2023
- Atypical architectural features and property ownership arrangements create unique challenges for sound insulation

## **Airport Sound Insulation Project**

#### **Alan Olson & Glenda Gutierrez, Project Managers**

olson.a@portseattle.org | gutierrez.g@portseattle.org

## **Program/Project Scope Overview**

The primary goal of the Sound Insulation Program (SIP) is to achieve the FAA standard 45 decibel (dB) or less interior noise level.

The construction scope of work includes:

- Installing new Sound Transmission Class (STC) rated windows, doors and storm doors
- Providing supplemental exterior ventilation as required
- Fitting upgraded smoke and fire detectors as required
- Furnishing other items/upgrades as required by code for each location

It is anticipated that up to 80% of eligible costs will be funded by FAA Airport Improvement Program (AIP) grants, assuming the availability

# Program/Project Scope Overview

The selected Consultant and their sub-consultants will provide support for:

- Overall SIP Development and Planning
- SIP Participant Outreach and Pre-qualification
  - includes acoustic pre-testing for eligibility and obtaining required homeowner documents
- Construction Project Design
- Construction Contract Development
- Pre-Construction services
- On-site Construction Management and General Contractor oversight
- On-site property owner/tenant coordination during construction
- Construction Project Closeout
- Construction Project Warranty Phase and post-construction acoustic testing

## **Program/Project Scope Overview**

The selected Consultant and their sub-consultants will also provide:

- FAA compliance and coordination support services
- Program/project schedule and budget development services
- Regulated materials testing, abatement and compliance support services
- Program/project Quality Assurance/Quality Control plan development services
- Language translation services
- Administrative support services
- Document preparation and control services
- Property title search and legal documentation services
- Construction safety plan development and on-site safety oversight
- Special testing and compliance services (as required)

# Port Port Project Delivery Methods Project Delivery Methods

- The project delivery method for the Single-Family Sound Insulation Program is via a Job Order Contract (JOC)
  - The JOC is a small works Task Order project delivery method
  - Packages of 2 or more home designs are issued to the JOC in individual Work Orders
  - Each Work Order may not exceed \$500,000
  - The JOC may not exceed \$4 million worth of work in a calendar year
- The project delivery method for the Apartment and Places of Worship Sound Insulation Programs will likely be Design Bid Build.

## **Environmental Considerations**

- The Prime Consultant is responsible for providing a Good Faith Regulated Materials survey for each property participating in the Sound Insulation Program
- The Prime Consultant is responsible for coordinating Regulated Materials abatement and abatement oversight for each property requiring it
- The Port of Seattle will also provide independent Regulated
   Materials abatement oversight for each property requiring it
- Other environmental issues/concerns identified will be treated on a case-by-case basis

# **Construction Management**

#### **Heather Munden, Construction Manager**

munden.h@portseattle.org

# Port Construction Management of Seattle Construction Management

 Port of Seattle Construction Management will provide administrative functions and oversight for projects that will not be administered under the single-family JOC.

# Port Central Procurement Office

#### **Tiffany Ngo, Contract Administrator**

Ngo.T@portseattle.org

- Contract Duration: 8 years
  - 5 Year base contract with 3 possible 1-year extensions
- Indefinite Delivery, Indefinite Quantity (IDIQ)
- Estimated Contract Value: Not to Exceed \$40 Million
- ■Estimated DBE Goal: 2.87%

# Port Seattle Solicitation Overview

- By offering a proposal, the firm represents that it has carefully read the Terms and Conditions and agrees to be bound by them
- Review Insurance Requirements in Exhibit 2 Service **Agreement Terms and Conditions**

## **Anticipated Solicitation Schedule**

Solicitation Schedule may be subject to change.

# Port Individual Q&A Sessions Of Seattle\*

Schedule an individual Question and Answer (Q&A) session with the Port by emailing ngo.t@portseattle.org before 12:00PM PST on Friday, February 26th.

Sessions will be scheduled for March 2nd and 3rd.

# Questions/Networking
