

INTERNSHIPS AND FELLOWSHIPS

HIGH SCHOOL INTERNSHIPS

The Port offers high school internships each summer and winter with focus areas including Aviation, Maritime, Environmental Sustainability, and Community Engagement. Internships combine career exploration in Port-related industries with real-life work experience in different departments. Interns will also have the opportunity to practice skill development in areas such as project management, public speaking, and teamwork.

POST-SECONDARY INTERNSHIPS

The Port offers unique post-secondary internship opportunities throughout the year designed to recruit specifically from post-secondary partnerships with technical schools and certificate programs.

COLLEGE AND GRADUATE INTERNSHIPS

The Port offers college and graduate internships throughout the year. These internships allow students to work in a field aligned with their education and career goals. The Port offers internships across various Port departments such as accounting, engineering, construction management, project management, airport operations, legal, human resources, environmental, and many more.

VETERAN FELLOWSHIPS

Every six months, the Port hires a small cohort of recently separated or retired veterans. During the six-month paid fellowship, veterans will be exposed to the civilian work environment and to corporate business practices. Veteran fellows partner with a mentor and workgroup to help guide them in developing their career goals. They will receive assistance to identify transferable skills, work on their resume, and improve interviewing techniques.

Details and Eligibility

More details about the Port of Seattle's range of internship and fellowship opportunities, including eligibility requirements, visit portseattle.org/careers.

All internships and fellowships are paid

All of our internships and fellowships are paid and many are also credit-earning. Email Internships@portseattle.org for more information.
